

True ALR

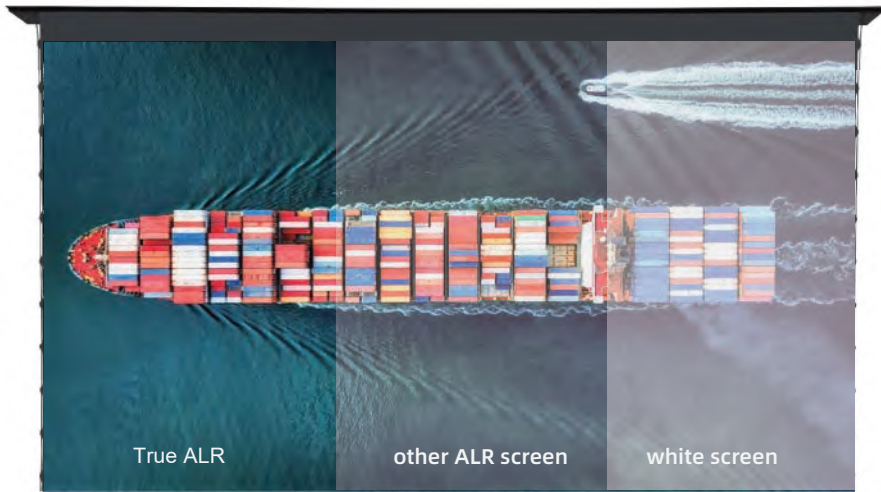

PERFECT MATCH FOR UST PROJECTOR / LASER TV

ELECTRIC FLOOR RISING ALR SCREEN

Premium Ambient Light-Rejecting Technology

ADVANTAGE FRIENDLY FEATURES

Built-in 868MHz wireless Control

Up & down limit adjustment
Anti-pinch hand device

BRIGHTER & BETTER

Screen is with 3D nano coating which combines the contrast and gain perfectly reaching 20000:1 cinema standard. With a nearly perfect viewing angle of 178° and big size range (100"-120"), it is capable of being viewed from extreme off axis positions even during day time with ambient light. When compared with normal matte white screen and other ALR fabric, the picture comes alive and maintains the contrast of the projector.

Double v-shaped structure
bracket

Seamless splicing technology
without printing ink, healthy
and eco-friendly.

Hidden into the floor or placing.
